

*Presents The Excavator
High Penetration*

Multi-Ripper[®] Tooth

*US Patent Numbers 7,332,133 & 7,739,815
Canadian Patent Number 2,521,725
Mexican Patent Number 272,981
Patents Granted and Pending in Many Other Countries*

*Operators have claimed
a 2 to 1 penetration
ripping advantage
over a conventional
twin tiger tooth*

*Rips like two
staggered single points
while ripping the sides
and the bottom
of the trench flat*

*Chosen as winner of
Equipment World Magazine's
"Innovations 2008"*

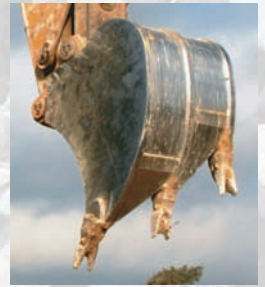

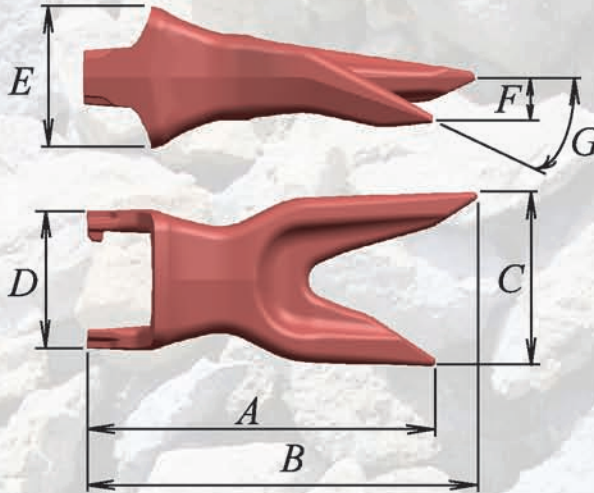

*Your excavator will have improved penetration,
applying the maximum breakout force
individually to each tooth point,
using our patented "Staggered Point" technology*

Multi-ply Your Force! *with the award winning rock ripping*

Multi-Ripper[®] Tooth

Based on the same staggered point principle as the powerful Multi-Ripper Bucket

Increases the ripping ability of your standard excavator bucket!

Maximize tooth force one point at a time, using patented "Shanks on an Arc" technology.

Specifications are subject to change without notice

Available for all models of excavators & backhoes Within Size Class
